

PRODUCT INFORMATION TopPilon-VI_TY_EN - 28.04.2020 - www.vs-furniture.com

TopPilon-VI Double-pylon folding board with six writing surfaces.

Two pairs of pylons (pairs of uprights) made from combined, extruded aluminium profiles with natural anodized finish. Counterweights made from steel or plastic, lightweight, low-noise and maintenance-free, travelling in the uprights. The board surface can be moved vertically in front of the pylons. See table for maximum pylon height.

Installation. Wall mounting.

Board surfaces made from steel sheet, held in frame without screws, with rounded aluminium profiles and safety corners. Chalk strip and wiper holder on main surface (F1, F6) and dirt collection channel on the wings (F2, F3, F4, F5) made from aluminium with natural anodized finish and with side safety caps.

Accessories. Centre-mounted projection surface or screen.

The following material groups are available to choose from: Pylon made of aluminium: M(anodisé); Writing surface made of steel: E1.

Further products on this page: PantoMove-LuPo, Quattro-Teach.
